NEXO VATE ROBO SOCCER

OBJECTIVES:

Teams control robots to drive the ball into the opponent's net and score goals, with matches played in a knockout format where winners advance to the next round.

ELIGIBILITY:

- The competition is open to all .
- Each team must consist of 2 to 4 members.
- A participant cannot be a part of multiple teams.

Open to all Participants can compete individually or as a team, as per event rules. All participants must carry a valid student ID card for verification. Entry will be permitted only after successful registration. Participants are expected to follow all event guidelines and maintain discipline throughout the competition.

BOT SPECIFICATIONS:

- Each robot must fit within dimensions of 30 cm × 30 cm × 30 cm (L × B × H), with a maximum 5% tolerance (up to 31.5 cm).
- The robot's weight must not exceed 5 kg, with an additional 5% tolerance (up to 250 g).
- Robots may be either wired or wireless. For wired bots, the cable must be at least 4 meters long and remain slack during the match.
- A maximum power supply of 12V DC is allowed. Only battery-powered robots are permitted, and voltage will be checked at the motors before the event.
- Only electric motors are allowed. The use of IC engines, compressed air systems, or any non-electric mechanisms is strictly prohibited.
- Ready-made RC cars or pre-built chassis are not allowed. All robots must be fully designed and assembled by the participating team.
- Robots may include mechanisms to push or strike the ball, but suction or adhesive methods to hold the ball are not permitted.
- Each robot must undergo a technical inspection at least 30 minutes before the match to ensure it meets all specifications.

MATCH FORMAT:

- The competition follows a knockout format.
- Matches are played in time-limited halves, with varying durations for eliminators, semi-finals, and finals.
- In case of a tie, sudden-death or extra overtime rounds will be conducted to decide the winner.
- Robo Soccer matches focus on skill, control, and strategic gameplay to determine the advancing team.

GAMEPLAY RULES:

- Matches start with robots placed in designated zones, followed by the referee's signal.
- Teams must control and maneuver the ball using their robots while adhering to all rules.
- Blocking opponents is allowed, but causing damage or interfering with control systems is strictly prohibited.
- A goal is valid only when the ball completely crosses the goal line.
- After each goal, play resumes from the center of the arena.
- One technical timeout (maximum 1 minute) is allowed per team for minor repairs.
- Crab drive or sideways movement mechanisms are not permitted.
- Event organizers reserve the right to modify rules if necessary during the event.

JUDGING & FAIR PLAY:

- The team scoring the most goals by the end of the match is declared the winner.
- In case of a tie, extra time or penalty-based rounds will determine the result.
- The referee's decisions regarding goals, fouls, penalties, and match timing are final and binding.
